Conflict Minerals Sourcing Policy

Definition

"Conflict minerals" are defined in Section 1502 of the Dodd Frank Wall Street Reform and Consumer Protection Act as columbite tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, along with any other mineral or derivative determined by the U.S. Secretary of State to be financing conflict in the Democratic Republic of the Congo (DRC) or an adjoining country. The metals derived from these minerals are tin, tantalum, tungsten, and gold, commonly referred to as 3TG.

Policy Statement

Precious Metals Plating is committed to the responsible sourcing of the metals and materials used in our plating operations. It is our policy to support the goals of Section 1502 of the Dodd Frank Act and the related SEC rules on conflict minerals.

Precious Metals Plating does not knowingly purchase materials containing 3TG that directly or indirectly finance or benefit armed groups in the DRC or adjoining countries.

Jeff Kennedy, Quality Manager
